

Maximising outcomes for students with a disability – Professional development for educators.

DO YOU WORK WITH STUDENTS THAT:

- Have difficulty paying attention?
- Have delayed speech or difficulties communicating?
- Use mobility equipment?
- Showing increased behaviours?
- Can't sit still?
- Are PSD funded?
- Have NDIS funding and need to know more about NDIS?

WE CAN HELP WITH EVIDENCE BASED STRATEGIES AND SKILL DEVELOPMENT

We invite you to attend a complimentary workshop to increase your knowledge and skills in supporting young people with a disability. We will present strategies to help support students who are having difficulties engaging and participating in the school environment.

Everyday Independence supports children, people and families to build independence in everyday life. We do this through a person centred approach in the provision of Occupational Therapy, Speech Pathology, Physiotherapy and Psychology to build on what is working and create change in areas that are not working.

We can also come to you at your school (fee involved) at a time that suits you. Please speak with us about your requirements.

WHERE:

Everyday Independence Office -
8 Rutland St, Newtown

WHEN:

5:30 – 7pm
Monday 5th September 2016 (Week 9)

COST:

To celebrate our new premises this session will be **FREE**.
